

Versatile Aluminum Pick-up Truck Bed

The Ultimate Utility Conversion

A practical addition to any truck, the Ute Bed® provides increased load area, tie-down points and removable sides. A Ute Bed®'s numerous accessories (ladder rack, underbody and topside tool boxes, tool drawers, canopies and campers) further enhance its functionality. Add new life to your old pick-up truck when you replace the old rusty bed with a shiny, new Ute Bed®.

The Ute Bed®'s satin finish aluminum construction is lightweight, yet strong. The drop sides are convenient, and easily removed for a flat bed. The Ute Bed® comes in a variety of sizes that will fit most single rear-wheel model pick-up trucks. Ute Bed®s for small and medium-sized pick-ups are 5,000 lb load-rated. Ute Bed®s for full-sized pick-ups are 8,000 lb load-rated. Various lengths are available. The Ute Bed® can accommodate many accessories.
