GM Chevy

Ute BullBar™

"I've never hit a deer in my life before I put a Ute BullBar™ on my Ford Super Duty. Then I hit two the following week... not a scratch. Want some venison?"

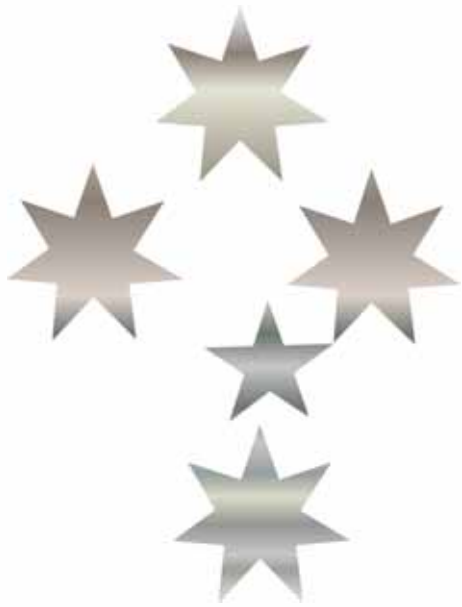

Ute BullBar™

Deflects a deer in an 80 mph impact.

"When a six-point buck jumped out onto the highway, I slammed on the brakes, but I hit him. (At that point, looking at my speedo, I had slowed down to about 80. A broken antler broke the headlight.) The insurance company waived the deductible and said they'd pay for the headlight because the BullBar™ saved the truck and around \$7,000 worth of repairs.*

***A 90 mph impact.
Protected.***
